

# Moverio BT-35E

DATASHEET / BROCHURE

Expanding the scope of connectivity and usability with a responsive display for healthcare, engineering, commercial drone piloting and more.

With the BT-35E, users can focus on the task at hand with these hands-free Si-OLED-powered binocular see-through smart glasses that can deliver a range of content at low latency from a range of devices using HDMI or USB-C connectivity. These durable and comfortable smart glasses are designed to be worn by a range of users or visitors.

## Designed for user hardware and heavy usage

Instead of utilising its own controller running Android, this model features an interface box allowing for other devices to be connected via HDMI or USB-C for low latency. The design and wearability is key, and the BT-35E is designed with commercial applications in mind. Its durable build and features designed for comfort mean it can be repeatedly worn by lots of users, fitting comfortably for long periods of time, no matter their head shape and size, or if they wear glasses.

## High contrast for true AR

With the BT-35E, unused display space appears truly transparent thanks to our Si-OLED micro display technology and its high contrast ratio of 100,000:1. This means augmented content can be immersively overlaid onto the real world.

## Amazing image quality and performance

720p HD display and high brightness ensure a crisp image and vivid colours. The smart glasses can also deliver 3D content.

## Easy management and operation

The BT-35E can be used both outdoors and indoors thanks to the flip-up shade. Two years' warranty and additional warranty are available on purchase via our Cover+ packs.

## KEY FEATURES

- **Eyes on the task at hand**  
Keep focussed on your activity through the power of AR
- **Durable and flexible design**  
Designed to be worn easily by a wide range of users
- **HDMI and USB-C connectivity**  
Deliver a low-latency experience
- **Amazing image quality**  
HD display (720p) & high brightness ensure a crisp image and vivid colours
- **Ideal for commercial applications**  
Such as healthcare, engineering, commercial drone piloting and more

## PRODUCT SPECIFICATIONS

<b>TECHNOLOGY</b>	
Model Type	See-through OTG (Over the Glasses)
<b>OPTICAL</b>	
Display Device Type	Si-OLED (Silicon - Organic Light-Emitting Diode)
Driving Method	Mono Crystalline Silicon Active Matrix
Display size	0.43 inch wide panel (16:9)
Pixel Number	921,600 pixels ( 1,280x 720) x RGB
Screen Size (Projected Distance)	40 inches at 2.5 m - 320 inches at 20 m
Colour Reproduction	24 bit-colour (16.77 million colors)
Refresh rate	30 Hz
<b>SENSORS</b>	
Camera	5 million pixels
Compass	Yes, Headset only
Gyroscope	Yes, Headset only
Accelerometer	Yes, Headset only
Microphone	Optional
Ambient Light Sensor	Yes
<b>CONNECTIVITY</b>	
microUSB	USB 2.0
Connector ports	micro-USB, 4 pin mini jack (earphones with microphone complying with the CTIA standard) x1, USB Type C, HDMI
<b>USER INTERFACE</b>	
Function key	2D/3D, Brightness, Volume (+/-), Power
<b>SUPPORTED FILE FORMATS</b>	
3D supports	Side By side
<b>CONNECTION TERMINAL</b>	
USB I/O	Micro-USB
<b>GENERAL</b>	
Power Supply Voltage: AC adapter	100 V - 240 V AC +/- 10%, 50 Hz/ 60 Hz, with Micro USB cable
Dimensions: Headset	194 mm x 176 mm x 30 mm (D x W x H)
<b>OTHER</b>	
Warranty	24 months Carry in Optional warranty extension available

## LOGISTICS INFORMATION

SKU	V11H935041
EAN code	8715946656663
Dimensions Single Carton	410 x 300 x 490 mm
Carton Weight	0 Kg
Country of Origin	Philippines
Layer	30 Units
Layer Block	40 Units

## Moverio BT-35E

### WHAT'S IN THE BOX

- AC adapter
- Belt clip
- Carrying Case
- Flip-up shade
- Headset
- Interface box
- Micro-USB cable
